National Healthcare Coalition Conference 2015

Sheraton San Diego Hotel and Marina
San Diego, CA
Ensuring Readiness Building Resilience

December 1–4, 2015

The National Healthcare Coalitions Preparedness Conference (NHCPC) is an evolving meeting created by coalitions, for coalitions.

A healthcare coalition is a group of healthcare organizations, public safety and public health partners that join forces for the common cause of making their communities safer, healthier and more resilient. Coalitions are forming all around the United States to support communities before, during and after disasters and other crises.

The NHCPC provides a forum for sharing ideas, innovations and best practices for building and growing coalitions.
Nicole Lurie, MD, MSPH, Assistant Secretary for Preparedness and Response
HPP going forward:
*Nimble, coordinated, and resilient*

- All HCCs capable of managing a response
  - Use incident management
  - Align with nimble, trained NDMS/MRC
  - Response capabilities a new HPP requirement next project period

- New resources available to help
  - Hospital surge evaluation tool
  - Health care coalition surge evaluation tool
  - Social network analysis
  - Technical Resources, Assistance Center, and Information Exchange (TRACIE)

- CMS Proposed Rule provides HCCs opportunities for new roles and increased sustainability in 2016 by coordinating implementation
Is your HCC ready to respond to a Paris-style event?

- How quickly could your HCC stand up?
- Could you distribute patients and mitigate surge of patients from multiple locations to nearest appropriate health facilities? Decompress busy facilities?
- Could you distribute/redistribute key medical supplies across multiple facilities to avoid shortages?
